

XF 310 SEDUM PLUGS

DESCRIPTION

The XF 310 Sedum Plugs are 72-cell, and grown in an assortment of varieties suitable for green roof conditions. Requires ongoing maintenance for root establishment, 2-4 years until maturity is reached.

PHYSICAL PROPERTIES

Varieties	Species Selection based on regional availability and climate.
Plug Size	1 inch (2.54 cm)
Root Ball	2.5 inch (6.35 cm)
Tray Quantity	72 Plugs (one variety per tray)

ADVANTAGES

Plug planting allows for complete customization of color, and pattern for specifically planned areas.

APPLICATION

Use XF 310 as an accent, in a triangular pattern to provide uniform coverage.
