

XF 604 C EDGING RESTRAINT CONNECTOR

DESCRIPTION

The XF 604 Edging Restraint is an extruded, marine-grade aluminum edging connector. Placed between two edging pieces, self-tapping screws connect to the edging.

PHYSICAL PROPERTIES

Material	Extruded aluminum with mill finish
Material Color	Aluminum Silver
Material Thickness	80 mil (2.03 mm)
Dimensions	4-inch x 4-inch (101.6 mm x 101.6 mm)
Weight	0.21 lb (0.1 kg) 0.641 lb/ft (0.953 kg/m)

ADVANTAGES

Provides an aesthetic border to contain the growing media and vegetation. Added UV protection for modular trays.

APPLICATION

XF 604C Connector requires the use of edging restraints and corners to contain the green roof.
