

## XF 604 X EDGING RESTRAINT CORNER

### DESCRIPTION

The XF 604 X Edging Restraint Corner is an L-Shaped extruded, marine-grade aluminum edging connector. Placed between two perpendicular edging pieces, self-tapping screws connect to the edging.

### PHYSICAL PROPERTIES

|                    |   |
|--------------------|---|
| Material           | Extruded aluminum with mill finish          |
| Material Color     | Aluminum Silver                             |
| Material Thickness | 80 mil (2.03 mm)                            |
| Dimensions         | 4-inch x 4-inch<br>(101.6 mm x 101.6 mm)    |
| Weight             | .43 lb (.19 kg)<br>0.641 lb/ft (0.953 kg/m) |

### ADVANTAGES

Provides an aesthetic border to contain the growing media and vegetation. Added UV protection for modular trays.

### APPLICATION

XF 604X corners require the use of connections and edging restraints to contain the green roof.
